

Endorsing Organization Membership Form

All First Benefits Insurance Mutual policyholders must establish membership in an *industry-related endorsing association* or participating chamber of commerce at the time the policy is bound. Please indicate the appropriate membership qualification below. If you do not have a current membership in either a participating chamber or an industry-related association, your membership requirement may be met by joining the retail association in either state.

The insured will be responsible for initiating the membership process with their industry-related endorsing organization or chamber of commerce. Processing of new business cannot be finalized until membership in one of the endorsing organizations is verified.

First Benefits will verify all membership with correlating industry-related associations and chambers of commerce. If an insured joins an association outside of their industry-related activities, then First Benefits will notify the agent that the membership does not meet the proper membership requirements.

Direct any membership questions to 888-393-2667.

Insured: _____ DBA: _____

Phone (required): _____ Email (required): _____

****Indicate the insured's current membership in one of the endorsing organizations below.****
